

Agenda 47 | Cementing Fair and Reciprocal Trade with the Trump Reciprocal Trade Act (6/21/23)

"Under the Trump Reciprocal Trade Act, other countries will have two choices—they'll get rid of their tariffs on us, or they will pay us hundreds of billions of dollars, and the United States will make an absolute FORTUNE."

- Donald Trump will stop the flow of American jobs overseas. It is a top priority so he will pass the Trump Reciprocal Trade Act.
- This law is reciprocal. It would give President Trump the authority to impose tariffs on American-made goods sent to foreign countries when those nations impose high tariffs on the goods they send to the United States.
- Some countries charge us too much money on the goods they send to the United States. President Trump could change that by negotiating deals that charge those countries higher tariffs on goods they want to ship into the United States until they lower their costs to us.
- The Trump Reciprocal Trade Act puts AMERICA FIRST. It would repeat President Trump's unmatched success. He reduced the trade deficit, grew wages, and created more than half a million new manufacturing jobs. That is winning!
- President Trump's landmark legislation advances the views of 91 percent of conservative Americans and 75 percent of liberal folks. All of them support placing reciprocal tariffs on imports to protect American workers.

The Trump Reciprocal Trade Act is an additional tool, along with universal baseline tariffs, to shrink the trade deficit and bring back American jobs and wealth.
