

## **Agenda 47 | President Trump's New Trade Plan to Protect American Workers (2/27/23)**

*"Washington stood idly by as other countries engaged in unfair trade practices, such as massive subsidies, currency manipulation, and . . . the wholesale dumping of foreign-made products sold below cost for the sole purpose of driving you out of business."*

- President Trump's America First trade policy will completely eliminate United States dependence on China.
- In addition to universal baseline tariffs on most foreign goods, President Trump will revoke China's Most Favored Nation trade status and adopt a 4-year plan to phase out all Chinese imports of essential goods — everything from electronics to steel to pharmaceuticals.
- President Trump will establish new rules to stop U.S. companies from investing in China and stop China from buying up America, allowing only those investments that serve American interests.
- President Trump will ban federal contracts for any company that outsources to China.
- President Trump's tariff plans will be the linchpin of a new Strategic National Manufacturing Initiative that will rebalance the global trading system and dramatically strengthen America.
- Raising tariffs on foreign producers while lowering taxes for domestic producers will help keep jobs and wealth in the United States.

***President Trump's plans will bring back millions of American jobs and generate trillions of dollars of new wealth to strengthen American society.***
